	800	900	1000	1200
	1500	1600		

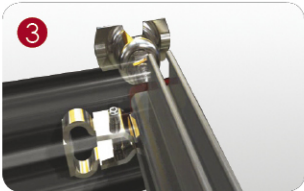

Panel

Adjustable glides allows to stabilize structure both onto the ceiling and onto the floor.

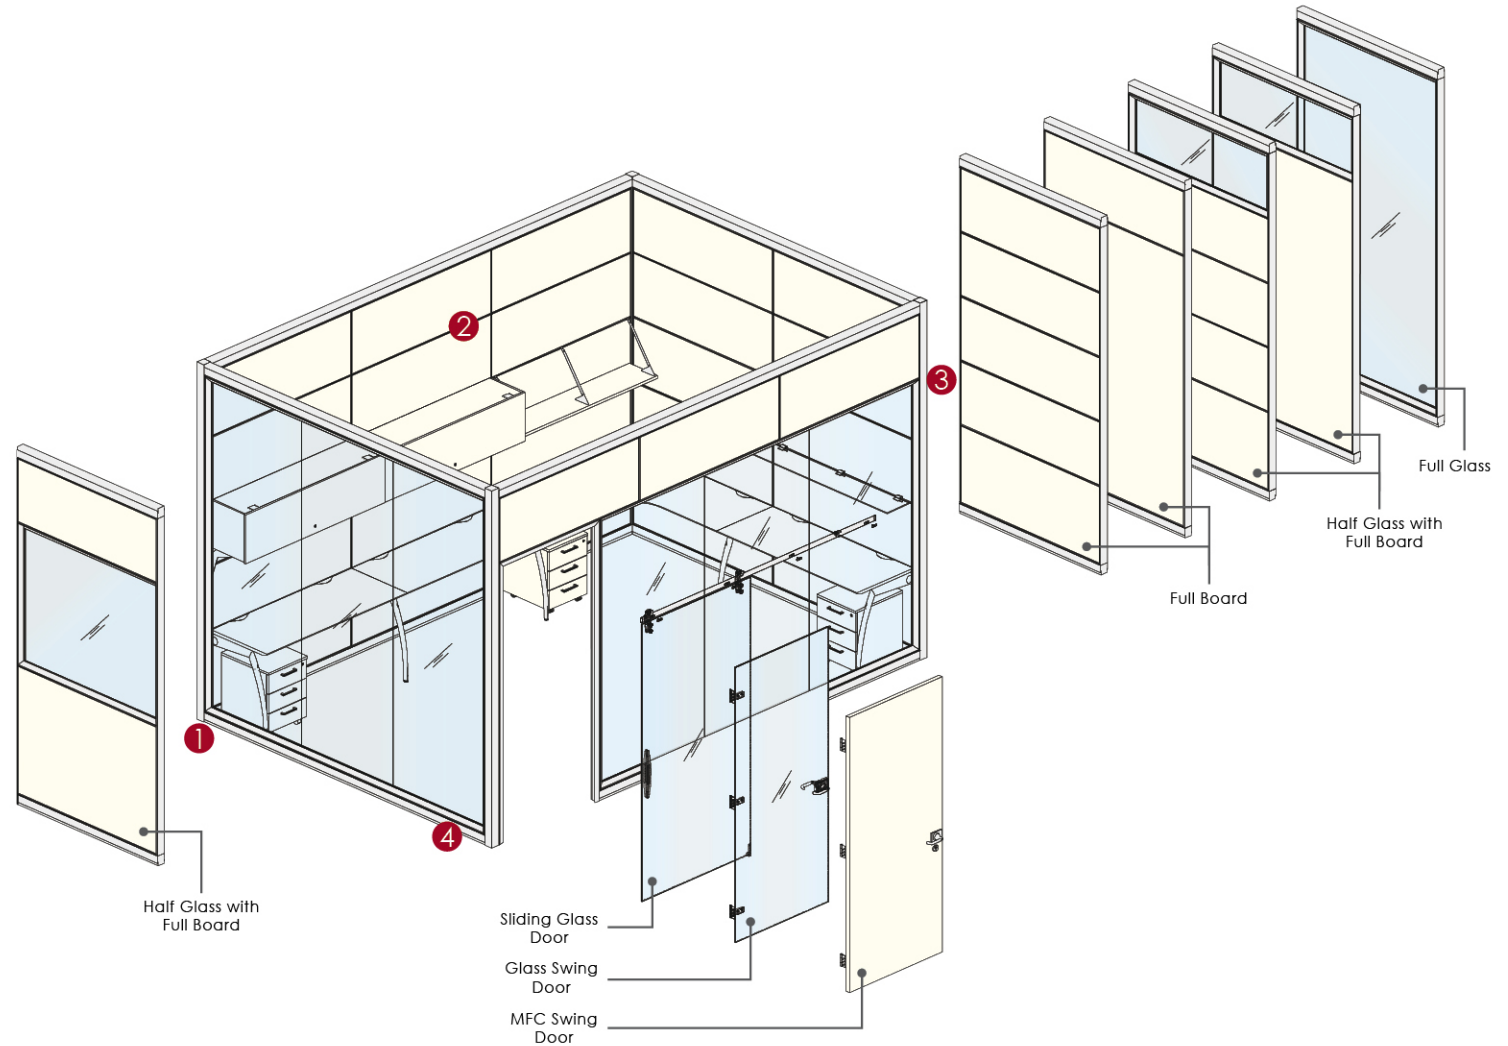

Simple clip are used to secure boards onto the metal frame.

Using frame clamp between horizontal and vertical frames make it easy to assemble.

Partition frames are covered with skirting for a touch of elegance.

Wiring Management

The NETBOX can be mounted into workstation panels. It's available in any configuration from 2 to 4 gangs.

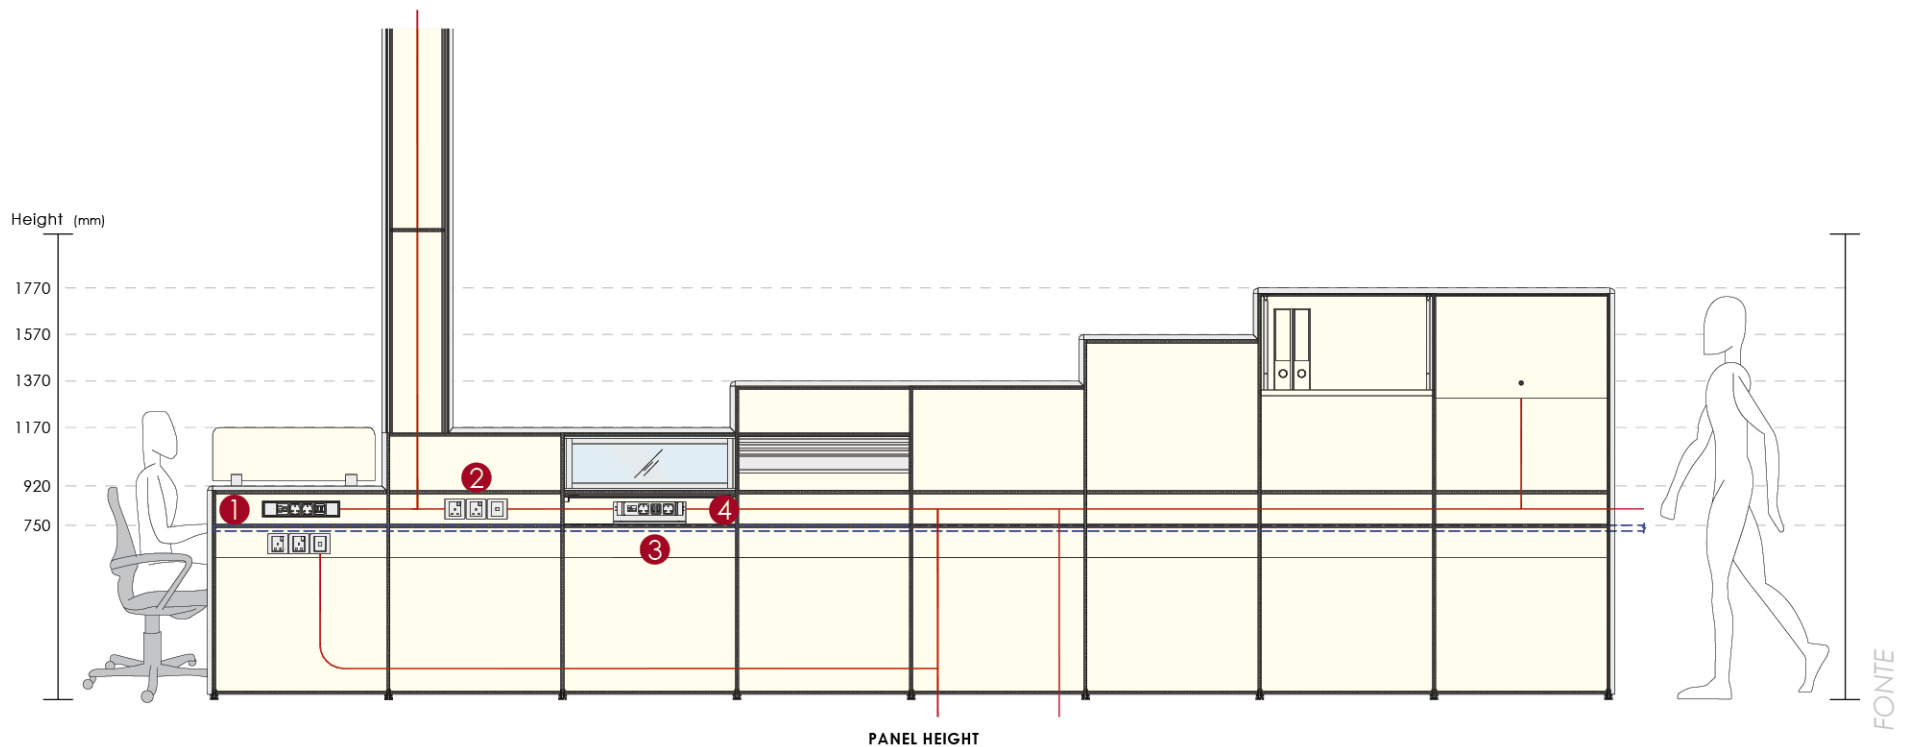

The plug outlet also can be mounted into workstation panels up to customers requirement.

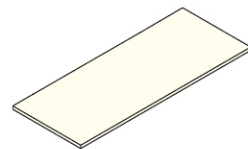

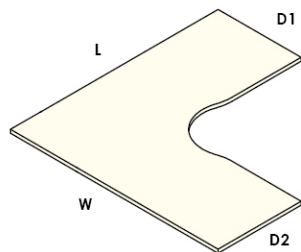

The NETBOX can be used in daisy chain inside a cable tray.

The daisy chain is wired with connector cables, available in any length, using the Plug and Play technology.

Specifications

Fonte series follows a contemporary, European design that integrates variety of elements that are easy on the eyes with minimalist approach. It creates calm and aesthetically pleasing ambience around it. Its curved metal legs not only reinforces the strength of its wall panel but also exudes an elegant look to its supporting worktop.

Design Concept

The series offers a complete range of superior quality furniture for the whole office. Other than its professional look, it offers spacious storage for effective file management. The unique elements of FONTE lies on the complementing workstations design which include variety of legs, panels for both full height partition and panels for workstation.

Worktops

Worktops are tested against heat resistant, abrasion, chemical and stain to sustain the wear and tear of daily usage in the office. Each worktop are carefully inspected to ensure that the quality comply according to ROHS Directive 2002/95/EC international standards. Constructed using 25mm thick, MFC laminated particle board, these worktops come in variety of sizes, and are finished with 2mm PVC edging to ensure careful seal.

Accessory & Storage

FONTE are equipped with a full range of accessories and storage units to enhance User's efficiency and also fulfilling their needs at work. This includes shelves, CPU holders, panel screens, wire management components and filing trays etc, that are most commonly used in the office.

Metal Leg & Panel Frame

FONTE workstation featured variety of standard elegant legs. Legs and panel frames are either cast or extruded, powder-coated to ensure it can endure the wear and tear, and also withstand against corrosion and other chemical. It is finished in metallic-gray which blends well to any worktops and surroundings.
