NEXA

TASK & WORK CHAIR

ELEVATE YOUR WORKSPACE TO THE STARS

Compact. Powerful. Beyond Ordinary.

NEXA blends futuristic aesthetics with elite-level support, designed for those who demand performance and style in any galaxy.

Engineered at the intersection of high-tech innovation and cosmic design, this chair provides a “zero-gravity” support experience for your workspace. Its distinctive high-back silhouette is meticulously contoured to align with your natural posture, while the reinforced exoskeleton offers targeted lumbar support and stability.

Whether you are navigating a high-stakes corporate boardroom or a sophisticated home studio, the NEXA offers a seamless blend of breathable comfort and polished durability, making it the ultimate command center for the modern professional.

ENGINEERED SEATING SYSTEM

NEXA is built with a high-performance exoskeleton structure that adapts to you. Precision engineering meets ergonomic intelligence for a seating experience that supports every move you make.

SPINE ALIGNMENT ZONE

Supports natural S-curve posture

DYNAMIC LUMBAR CORE

Multi-dimensional lumbar support

RECLINE AXIS

Synchro-tilt movement

01

LUMBAR CORE

Height & Depth adjustment for precise lower back support

02

SYNCHRO RECLINE

Backrest & seat move in harmony with your body.

03

SEAT

Seat depth adjustment for versatile comfort.

> EXOFRAME STRUCTURE

A reinforced exoskeleton frame engineered to follow the natural curve of your spine, providing stability and support in every position.

> DYNAMIC SUPPORT SYSTEM

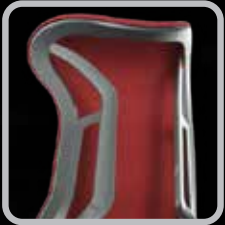

Multi-point adaptive support that responds intelligently across sitting, recline and idle states to reduce fatigue and enhance focus.

> PRECISION ADJUSTMENT

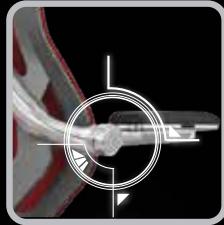

Intuitive controls for lumbar, seat, armrest and footrest deliver a tailored seating experience for every body and every task.

THE EXOFRAME SYSTEM

ENGINEERED FOR EVERY MOVE

Integrated Headrest

T-REX Bionic Armrest

Breathable Mesh / Fabric

Seat shell Adjustment

Backrest & Lumbar Support

Aluminium Polished Based

INTEGRATED HEADREST

Adaptive headrest supports neck naturally in every position

T-REX BIONIC ARMREST DESIGN

One-piece arm-frame follows your recline angle for consistent support.

MESH / FABRIC

High-elastic breathable mesh / fabric keeps you cool and comfortable all-day long.

SEAT SHELL ADJUSTMENT

Adjustable seat with high-density cushion with waterfall front edge reduces thigh pressure.

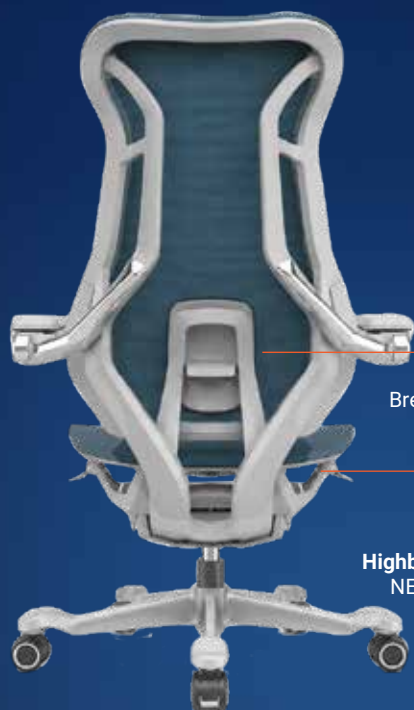

BACKREST & LUMBAR SUPPORT

Supported backrest with lumbar support for long hours seating.

ALUMINIUM POLISHED BASED LEG

The five-star prong design provides a wide center of gravity, preventing the chair from tipping when you recline or move.
