

Perform Perform-Elite

Meeting & Conference Tables

Product Information Sheet

1. **Conference Desk:** Meets with panel leg that is made from melamine faced particle board in black with 50mm thickness that ensures the stability and strength of the meeting crowd at the table. The elongated aluminum 2 flipper doors in the center of the table is not only an added feature design but it also allows multi users to access the cable channels from both sides at one time.
2. **Finishing:** The work surfaces table top is constructed with a 50mm thick melamine faced particle board finished with a unique PVC border upholstery that adds comfort to the arms when they rest on the conference table. This option also comes with a veneer laminated finishing work surface top constructed with a 43mm thick medium density board.
3. **Wire Management:** Designed with an aluminum flipper door, the aluminum cable box further facilitates with wire management.
